Administration Building

12 November 1957
2:35 P.M.

PRESENT

O/OSI - W. A. Tidwell (Presiding)

OSR -

OSI -

DD/P -

Commo -

STAT

MINUTES

At the second meeting held to discuss "Planning for Inspection under a Disarmament Agreement," Mr. Tidwell briefed the group on recent developments concerning U.S. policy on disarmament and each member commented on the ability of his component to contribute to the study of the inspection problem. It was agreed that OSI would prepare a statement of the minimum inspection system that could be tolerated by the U.S., a description of the equipment contained in a typical inspection post, and a map showing the areas in which the minimum number of inspection posts should be located. Other components would then indicate the areas in which these posts should be located to meet their interests as well as those of the inspection system. It was agreed that the group would meet again at the same time and in the same place on 3 December 1957, unless OSI was able to complete its work in time for the meeting to be held at an earlier date.
